## It's not too early to get your flu shot!

The best way to prevent the flu is to get a flu shot. Flu shots are offered at many places, including doctors' offices, pharmacies, and more. Flu vaccination can reduce flu illnesses, doctor's visits, and missed work and school due to the illness, as well as prevent flu-related hospitalizations and death. Ask your Resource Coordinator for more information about where you and your family can get vaccinated.

There's great info and a vaccine finder here: <https://www.healthvermont.gov/immunizations-infectious-disease/influenza/prevention>
