Overview

Whether you're just starting out in the field of manufacturing or are working at the supervisory level, CCV's manufacturing programs can help set you apart. Certified Production Technician (CPT), and 21st Century skills are credentials that can qualify you for higher-wage jobs and positions with stronger room for growth. Credits earned through certifications can be applied to CCV's STEM studies degree or certificate programs.

Outcomes

CCV's manufacturing credentials are a significant investment in your future. Upon successful completion, you'll be able to demonstrate to potential employers that you have the knowledge and skills needed for increased job stability and earning power. With CPT certification, you'll earn a nationally recognized credential that you can take with you wherever you go.

Median Wage

\$60,337

First-Line Supervisors of Production and Operating Workers

Choose Your Path.

Continue Your Education

Nearly half of CCV graduates choose to continue their education beyond an associate degree. To make transfer seamless, easy, and affordable, CCV has agreements with other institutions across Vermont and throughout the region. **Transfer opportunities include:**

- Mathematics at VTSU and UVM
- Electrical Engineering Technology at Excelsior
- Manufacturing Engineering Technology at VTSU
- Surveying Engineering Technology at the University of Maine

Cody Schmoll, CPT
Hazelett Corporation

“Not only do we walk away with a nationally recognized certification, Hazelett really stood behind us in this whole process. Everybody received a raise at completion. That alone was worth it, not to mention the knowledge.”

Get A Job

Connect with CCV’s Career Services team for help exploring careers, embarking on a job search, or learning about options to gain experience in manufacturing. Career Services has partnered with businesses and organizations across the state to host students for informational interviews, job shadow days, and internships. They’ve also created guides to help you explore career information based on your program of interest.

Advance Your Career

Partnerships with Vermont businesses give CCV students valuable opportunities to begin or advance a career in manufacturing. “The confidence that I took away was just unbelievable,” says Kyle Matheson, who became a production supervisor after taking the Applied Supervisory Leadership class offered by CCV to Darn Tough employees.
