

CCV Summer and Fall 2022 Health Protocols

As a conscientious community, we are relying on anyone present in our academic centers to use good judgement and common sense in helping to create and maintain a safe environment and to keep each other healthy. Please do your part by following these guidelines.

ALL STUDENTS MUST COMPLY WITH THE PROTOCOLS AS WRITTEN. INDIVIDUALS THAT ELECT NOT TO COMPLY WITH THESE GUIDELINES WILL FACE DISCIPLINARY ACTION AS OUTLINED IN THE [CCV STUDENT CODE OF CONDUCT](#).

Students must adhere to the following conditions when entering a CCV academic center.

No person may enter an academic center if they have any of the following COVID-19 symptoms: Cough, Shortness of breath, Sore throat, Abdominal pain, Nausea, Muscle aches, Headache, Diarrhea, Vomiting, Fatigue, Loss of sense of smell/taste, Chills/shaking, Fever greater than 100.4F, Congestion or Runny Nose.

Face Masks

- **Masks are optional. You may choose to wear a mask if you wish to do so.**
- The CDC recommends wearing a mask in indoor public settings, especially when COVID-19 community transmission levels are elevated.
- We all have different risk tolerance levels and unique health and family situations. We strongly encourage the respectful appreciation of each other's health needs and masking choices.
- No one should be questioned or challenged about their decision to continue to wear a mask.

Social Distancing

- Social distancing and personal hygiene are important safeguards.
- **Unvaccinated persons** should maintain social distancing whenever possible and avoid close contact.
- Respect the personal space of others.

Shared Spaces and Common Surfaces

- Maintaining cleanliness of shared spaces and common surfaces is a shared student responsibility.
- Clean or wipe down any area where you spend time, both when you arrive and when you leave.
- Cleaning supplies will be readily available upon request, if not immediately present.
- Advance sign up may be required prior to entry into certain common areas such as computer labs.
- Wash hands frequently and reduce contact with frequently touched surfaces.

Students who would like to request disability accommodations and/or alternative methods for meeting safety standards should contact an accessibility coordinator.
